ABSTRACT

The purposes of this research were 1) to construct and to find out the effectiveness of criterion-referenced tests in Thai Strands on Kinds of words usage for Prathom Suksa 6 2) to find out the cut - off scores of criterion - referenced tests 3) in criterion - referenced tests. The samples group consisted of 368 students from all 5,606 Students in Prathom Suksa 6 in the academic year 2010 at Amnatcharoen educational service office area selected by using a multistage random sampling. The Statistics used for data analysis were Index of Item - Objective Congruence, Discriminatory Index B, Reliability Values and Coefficient of reliability.

The research findings were as follows :

1. The qualities of nine criterion referenced tests of Thai subject on kinds of words usage for Prathomsuksa 6. There 7 were tests and each test consisted of 10 Items
2. The cut - off score point was ranging from 5 and 6 for 10 scores or 50 % to 60 %
3. The qualities of Seven criterion referenced tests the Index of Item - Objective Congruence was ranging from .80 to 1.00, 2) The Difficulty from .48 to .80 3) The Sensitivity Index from .247 to .598 4) The Construct Validity from .78 to .83 5) The Reliability value was ranging from .81 to .86
