ABSTRACT

This research aims to study the level of political participation of women in the municipality Tanya, study the factors influencing the political participation of women in the municipality Tanya Kalasin province, including the suggestions about the political participation of women in the municipality Tanya. The sample was 348 females aged 18 years and living in the municipality area ; They're selected by Taro Yamane sampling sized and the simple random sampling. The instrument was the five rating scale questionnaire with reliability was 0.87. Statistics were percentage, mean, standard deviation, Multiple correlation coefficient and Multiple Linear regression analysis.

The research results were found as follows ;

1. The political participation of women in the municipality Tanya, Kalasin province as overall was at moderate level, considering each aspect found it's at moderated for one, low for one, and lowest for 4. Sorting arithmetic mean from highest to lowest; The election the contract with government, the community role being the party officer and the vote demondiy, the protest and the reportor being respectively.
2. Factors influencing the political participation of women in the municipality Tanya, Kalasin province by significant at the .05 level were the training / seminars, the knowledge / understanding of the Thai politics and the educational level. Create a regression equation as follows;

Regression of raw score is.

$$Y = 1.406 + (-.041 X_1) + .097 X_7 + .075 X_9$$

Regression equation in standard score is.

$$Z = (-.159)Z_1 + .335Z_7 + .210Z_9$$

3. The suggestions about the political participation of women in the municipality Tanya, Kalasin province was found that : to provide opportunities for women increased political role. To encourage the participation of women in participating in the membership of political parties or political groups should allow women the opportunity to express their thoughts on different aspects of management. Give the information to the community and the municipality was aware of the women's support groups of women, the more operations. Provide knowledge about the role of women to those government offices. There should be an event that people can comment on the municipal administration. Prepare a media release of information as much as possibility. And put the education for women in the community through various forms of communication.
