## ABSTRACT

The research aimed to: 1) study the levels of participation in the management of the local wisdom of the basic education institution committees in the schools under the Office of Secondary Education Service Area 26, on the whole and by aspect; 2) compare participation in the management of the local wisdom of the basic education institution committees in the schools under the Office of Secondary Education Service Area 26, classified by the status of the committee members and the size of the school, on the whole and by aspect. The sample comprised chairpersons of the basic education institution committees, educational institution administrators, and teacher representatives under the Office of Secondary Education Service Area 26, from 34 schools, totally 102 committee members, of whom 27 were from 9 small schools and 75 from 25 large schools. They were purposively sampled. The sample size was determined according to the Krejcie and Morgan table. The instrument used was a rating scale questionnaire with the IOC ranging from 0.67 to 1.00, and the total reliability of 0.98. The analysis of data employed a computer program. The statistics used consisted of frequency, mean, and standard deviation. The hypothesis testing employed t-test (independent samples) and F-test (one-way ANOVA).

The results are as follows:

1. The level of the participation in the management of the local wisdom of the basic education institution committees in the schools under the Office of Secondary Education Service Area 26, on the whole and by aspect was in the high level; Three out of six aspect of participation in this order ranging from the highest to the lowest mean scores nutritional culture, the wisdom related to garments and the wisdom related to making a living.

2. The comparison of the participation in the management of the local wisdom of the basic education institution committees, classified by the status of the committee members and the size of the school, on the whole and by aspect. The research results revealed the following:

2.1 The chairpersons of the basic education institution committees, the educational institution administrators and the teacher representatives had no difference in their participation in the management of the local wisdom , on the whole and by aspect on all 6 aspects.

2.2. This is no significant difference in their participation in the management of the local wisdom in different of schools sizes as total and the aspects except on the 1<sup>st</sup> local language and literature, there was different at level .05 a significance.
