ABSTRACT

The objectives of this research were 1) to study development of local curriculum, 2) to study the effectiveness of the tried out local curriculum, and 3) to study the effectiveness of implementation of the local curriculum entitled “ Promoting Love in Thai Values through Morlum Performance with Poetry” for secondary school students. There were 3 Phases of this study: Phase 1, Drafting the Curriculum, in which 131 participants took part as the sample consisting of 110 Grade 12 Students, 6 teachers of the Art content strand, and 15 school board members; Phase 2, Trying out the Curriculum, the sample of which were 34 Grade 12 students of Kosoomwittayasan School selected to participate in the study by using purposive sampling; and Phase 3, Curriculum Implementation, in which the curriculum was further implemented with 30 secondary school students who were Molum Club members of Kosoomwittayasan School. The instruments used in this research were a questionnaire, an interview form, a learning achievement test, an assessment value scale of Love in Thai Value, and a questionnaire for assessing students' satisfaction. The statistics used in data analyses were mean, percentage, standard deviation, and t-test (Dependent Sample). The research findings were later descriptively analyzed and presented. Findings of the study are as follows:

1. For development of the local curriculum entitled “Promoting Love in Thai Values through Molum Performance with Poetry” for secondary school students, the study reveals that the overall appropriateness of the curriculum is in the high level.

2. Regarding the effectiveness of the tried out curriculum, the study reveals the following: 1) the students’ posttest learning achievement was significantly higher than that of the pretest at .05 level, 2) the students’ love in Thai values was in the highest level, and 3) the students’ overall satisfaction was also in the highest level.

3. Regarding further implementation of the curriculum, findings reveal the following: 1) the students’ posttest learning achievement was significantly higher than that of the pretest at .05 level, 2) the students’ love in Thai values was found in the highest level, and 3) the students’ overall satisfaction was also in the highest level.
