ABSTRACT

This research aimed to develop English vocabulary writing activities with writing exercises for Third -Grade students of the foreign language learning strand based on the 80/80 efficiency criteria, to compare the English writing achievement before and after using the English vocabulary writing activities, to determine the effectiveness of the English vocabulary writing activities, and to investigate the satisfaction of the students with the English vocabulary writing activities. The target group consisted of 25 Third - Grads students at Ban Non Mueang School, Borabue District, Maha sarakham Province under the Office of Maha sarakham Education Service Area 1, who were selected by using the purposive sampling technique. The instruments were nine lesson plans, nine sets of English vocabulary writing activities, an English writing achievement test and a questionnaire. The statistics used were percentage, mean, standard deviation, and t-test (Dependent Sample).

Results of the research are as follows: (1) The research findings showed that the efficiency index of English vocabulary writing activities was 84.08 / 86.01, which was higher than the required efficiency. (2) The findings indicated that the average posttest score of the students for English vocabulary writing skill was significantly higher than that of the pretest at the .05 level of statistical significance. (3) The effectiveness index of the English vocabulary writing activities with writing exercises was .7589 and (4) The overall satisfaction of the students with the English vocabulary writing activities was found at the high level ($\bar{X} = 2.95$, S.D. = 0.19).
